Sorbus aria 'Magnifica'

Height	8-12 m
Width	4-6m
Crown	broad ovoid, dark, dense crown
Bark and branches	grey
Leaf	green
Flowers	white, flowers in May
Fruits	orange, red
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	loamy soil, sandy soil, calcareous soil
Paving	tolerates paving
Winter hardiness zone	5a (-28,8 to -26,1 °C)
Wind resistance	fairly to good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, provides food for birds
Application	avenues and broad streets, tree containers, roof gardens
Shape	clearstem tree

This variety has a narrow spherical crown when young. It is a slow grower, the crown becoming broad ovoid only at a later stage. Because of this, plus the fact that it stands up well to hard surfaces, it is eminently suitable as an avenue and street tree. Height 8 - 12 m. The leaves, that remain on the tree for a long time, and the flowers are identical to those of the species. The fruits are a little larger and orange to cherry-red in colour. Winter hardiness zone: 5a Sorbus aria 'Magnifica' is eminently suited for planting in closed hard surfaces. At a later age the crown is almost completely round.
