

Acer 'Silver Vein'

Height	6-8 m
Width	4-6m
Crown	narrow vase-shaped, half-open crown, capricious growing
Bark and branches	striped, grey, white
Leaf	green
Autumn colour	yellow
Flowers	yellowgreen, flowers in April
Fruits	inconspicuous
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	loamy soil, sandy soil, peaty soil
Paving	tolerates no paving
Winter hardiness zone	5 (-28,8 to -23,4 °C)
Wind resistance	fairly to good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Application	tree containers, small gardens
Shape	clearstem tree, multi-stem treem
Synonyms	Acer conspiciuum 'Silver Vein'

Fairly slender, vertical tree with a fan-shaped crown. Sometimes has one trunk but frequently also has multiple trunks. The bark is among the most conspicuously marked of all the snake bark maples. Conspicuous silver-grey stripes decorate the blue-grey bark. The glossy, green leaves are 3-lobed, but the outer lobes are relatively small, reduced more or less to leaf points in some leaves. The leaf turns dark yellow in autumn. 'Silver Vein' is a splendid, solitary tree. The attractive bark features well in either gardens or parks.
