

Malus 'Adams'

Height	5-6 m
Width	5-6m
Crown	vase-shaped, half-open crown
Bark and branches	grey
Leaf	green
Autumn colour	yellow
Flowers	pinkred, flowers in May
Fruits	red
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, acid soil, calcareous soil
Paving	tolerates paving
Winter hardiness zone	5a (-28,8 to -26,1 °C)
Wind resistance	good, susceptible to sea wind
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, provides food for birds
Application	tree containers, industrial areas, small gardens, patio gardens
Shape	clearstem tree

A tree with a vase-shaped to almost round crown and a height of 5 - 6 m. The ovoid leaves emerge bronze coloured to brown, turn light green later and yellow in the autumn. Flowering starts in early May and the large, 4 - 5 cm, flowers are single. In bud they are still brownish-red but they turn dark reddish-pink when fully open. The hard round fruits are carmine red with a red blush, Ø 1.5 cm in size. 'Adams' can be used in parks, public gardens and small gardens and makes heavy demands on the soil as regards moisture supply and fertility. The tree is moderately sensitive to scab and is sensitive to sea wind. Winter hardiness zone: 5a
