| Fauna tree | resistant to frost (WH 1 - 6), can withstand wind, provides food for birds |
| Application | tree containers, industrial areas, small gardens, patio gardens |
| Shape | clearstem tree |

Malus 'Red Jade' has a broad weeping crown with thin pendulous branches. Height 4 - 5 m. The oval tapered leaves are bright green. The flower buds are purplish-red: the flowers open in early May and are white and single. Flower diameter Ø 3 - 4 cm. 'Red Jade' produces glossy red, oval fruits that stay on the tree for a long time, Ø 1 - 1.5 cm. The tree does not support hard surfaces and is used as a solitary. It makes heavy demands on the soil as regards moisture supply and fertility. Winter hardiness zone: 3
