

Prunus ×subhirtella 'Pendula Rubra'

Height	2-4 m, slow growing
Width	4-5m
Crown	broad weeping, half-open crown
Bark and branches	brown, grey, black
Leaf	green
Autumn colour	yellow, orange
Flowers	dark pink, flowers in April
Fruits	black
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, calcareous soil
Paving	tolerates no paving
Winter hardiness zone	5b (-26,0 to -23,4 °C)
Wind resistance	moderate
Other resistances	resistant to frost (WH 1 - 6)
Fauna tree	resistant to frost (WH 1 - 6), valuable for bees (honey plant)
Application	small gardens, patio gardens
Shape	clearstem tree, multi-stem treem

Prunus subhirtella 'Pendula Rubra' Usually grafted on a stem. The main branches spread horizontally while the relatively young twigs are very pendulous. It forms a decorative winter silhouette. It eventually attains a height of approx. 4 m. The green leaves are somewhat longer and narrower than those of the species, their autumnal colour yellow-orange. Produces many flowers from the end of March to early April. The flower buds are dark pink, the flowers bright pink and single. Flower diameter approx. 2 cm. It does not stand up to wet soil. Winter hardiness zone: 5b
