

Prunus serrulata 'Jo-nioi'

Height	5-7 m
Width	5-7m
Crown	broad vase-shaped, half-open crown
Bark and branches	brown
Leaf	green, bronze
Autumn colour	orange, red
Flowers	white, flowers in May, fragrant flowers
Fruits	seldom
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, calcareous soil
Paving	tolerates no paving
Winter hardiness zone	6a (-23,3 to -20,6 °C)
Wind resistance	fairly
Other resistances	resistant to frost (WH 1 - 6)
Fauna tree	resistant to frost (WH 1 - 6), valuable for bees (honey plant)
Application	avenues and broad streets, tree containers, small gardens
Shape	clearstem tree, multi-stem treem

Prunus serrulata 'Jo-nioi' is a healthy grower with a height of up to approx. 7 m. It forms a broad, vase-shaped, flattened crown. The twigs are reddish-brown and have few lenticels. The leaves emerge bronze coloured. The tree flowers in May, before the leaves emerge, producing an abundance of flowers. The white single flowers are in long-stemmed bunches and have a strong and pleasant scent. 'Jo-nioi' seldom bears fruit. The tree is suitable for planting as a park tree and as an avenue tree on wide green verges. It does not stand up to wet soil. Winter hardiness zone: 6a
