

## Robinia pseudoacacia 'Unifoliola'

<b>Height</b>	15 - 18 m
<b>Width</b>	8-10m
<b>Crown</b>	irregular broad pyramidal, half-open crown
<b>Bark and branches</b>	twigs olive green to brown, thornless, bark grey-brown, deeply grooved
<b>Leaf</b>	odd-pinnate, 15 - 25 cm, 3 - 7 leaf segments, terminal leaflet to about 15 cm long, green, feathered leaf
<b>Flowers</b>	In pendent racemes to 15 cm, white, about 2 cm, fragrant, June, fragrant flowers
<b>Fruits</b>	flat leathery pod, reddish brown, 5 - 10 cm
<b>Spines/thorns</b>	None
<b>Toxicity</b>	has toxic components
<b>Soil type</b>	few requirements as long as well drained
<b>Soil moisture</b>	suitable for dry soil
<b>Paving</b>	tolerates paving
<b>Winter hardiness zone</b>	5a (-28,8 to -26,1 °C)
<b>Wind resistance</b>	poor to moderate
<b>Other resistances</b>	resistant to frost (WH 1 - 6), resistant to de-icing salt
<b>Fauna tree</b>	resistant to frost (WH 1 - 6), resistant to de-icing salt, valuable for butterflies
<b>Application</b>	avenues and broad streets, industrial areas
<b>Shape</b>	clearstem tree, multi-stem treem
<b>Origin</b>	Pépinières Deniaux, Maine-et-Loire, France, circa 1858
<b>Synonyms</b>	Robinia pseudoacacia var. monophylla

Closed, broad pyramidal tree 15 - 18 m high. It is a vigorous grower with a vertical trunk and a squat, irregular crown. The twigs have no thorns. The irregularly shaped leaves hang on a long leaf stem and consist of a strikingly large top leaf (to approx. 15 cm) and 1 to 3 pairs of small side leaves. In the autumn the greyish green leaves turn yellow. 'Unifoliola' leafs out late in the spring and keeps its leaves remarkably long into the autumn. Produces large flower clusters of approx. 15 cm in June. The flowers are white and aromatic. 'Unifoliola' is sensitive to wind. Winter hardiness zone: 5a
