## Magnolia ×soulangeana 'Satisfaction'

Width       5-8m         Crown       wide oval to round, half-open crown, capricious growing         Bark and branches       brown, grey         Leaf       green         Flowers       white, purple-red, flowers in April-May         Spines/thorns       None         Toxicity       usually not toxic to people, (large) pets and livestock         Soil type       clayed soil, loamy soil, sandy soil, peaty soil, acid soil         Paving       tolerates no paving         Winter hardiness zone       6b (-20,5 to -17,8 °C)         Wind resistance       good         Other resistances       resistant to frost (WH 1 - 6), can withstand wind         Application       tree containers, roof gardens		
Crown     wide oval to round, half-open crown, capricious growing       Bark and branches     brown, grey       Leaf     green       Flowers     white, purple-red, flowers in April-May       Spines/thorns     None       Toxicity     usually not toxic to people, (large) pets and livestock       Soil type     clayed soil, loamy soil, sandy soil, peaty soil, acid soil       Paving     tolerates no paving       Winter hardiness zone     6b (-20,5 to -17,8 °C)       Wind resistance     good       Other resistances     resistant to frost (WH 1 - 6), can withstand wind       Application     tree containers, roof gardens	Height	2-3 m
Bark and branches       brown, grey         Leaf       green         Flowers       white, purple-red, flowers in April-May         Spines/thorns       None         Toxicity       usually not toxic to people, (large) pets and livestock         Soil type       clayed soil, loamy soil, sandy soil, peaty soil, acid soil         Paving       tolerates no paving         Winter hardiness zone       6b (-20,5 to -17,8 °C)         Wind resistance       good         Other resistances       resistant to frost (WH 1 - 6), can withstand wind         Application       tree containers, roof gardens	Width	5-8m
Flowers white, purple-red, flowers in April-May  Spines/thorns None  Toxicity usually not toxic to people, (large) pets and livestock  Soil type clayed soil, loamy soil, sandy soil, peaty soil, acid soil  Paving tolerates no paving  Winter hardiness zone 6b (-20,5 to -17,8 °C)  Wind resistance good  Other resistances resistant to frost (WH 1 - 6), can withstand wind  Application tree containers, roof gardens	Crown	wide oval to round , half-open crown, capricious growing
Flowers white, purple-red, flowers in April-May  Spines/thorns None  Toxicity usually not toxic to people, (large) pets and livestock  Soil type clayed soil, loamy soil, sandy soil, peaty soil, acid soil  Paving tolerates no paving  Winter hardiness zone 6b (-20,5 to -17,8 °C)  Wind resistance good  Other resistances resistant to frost (WH 1 - 6), can withstand wind  Application tree containers, roof gardens	Bark and branches	brown, grey
Spines/thorns       None         Toxicity       usually not toxic to people, (large) pets and livestock         Soil type       clayed soil, loamy soil, sandy soil, peaty soil, acid soil         Paving       tolerates no paving         Winter hardiness zone       6b (-20,5 to -17,8 °C)         Wind resistance       good         Other resistances       resistant to frost (WH 1 - 6), can withstand wind         Application       tree containers, roof gardens	Leaf	green
Toxicity usually not toxic to people, (large) pets and livestock  Soil type clayed soil, loamy soil, sandy soil, peaty soil, acid soil  Paving tolerates no paving  Winter hardiness zone 6b (-20,5 to -17,8 °C)  Wind resistance good  Other resistances resistant to frost (WH 1 - 6), can withstand wind  Application tree containers, roof gardens	Flowers	white, purple-red, flowers in April-May
Soil typeclayed soil, loamy soil, sandy soil, peaty soil, acid soilPavingtolerates no pavingWinter hardiness zone6b (-20,5 to -17,8 °C)Wind resistancegoodOther resistancesresistant to frost (WH 1 - 6), can withstand windApplicationtree containers, roof gardens	Spines/thorns	None
Paving tolerates no paving  Winter hardiness zone 6b (-20,5 to -17,8 °C)  Wind resistance good  Other resistances resistant to frost (WH 1 - 6), can withstand wind  Application tree containers, roof gardens	Toxicity	usually not toxic to people, (large) pets and livestock
Winter hardiness zone     6b (-20,5 to -17,8 °C)       Wind resistance     good       Other resistances     resistant to frost (WH 1 - 6), can withstand wind       Application     tree containers, roof gardens	Soil type	clayed soil, loamy soil, sandy soil, peaty soil, acid soil
Wind resistance good Other resistances resistant to frost (WH 1 - 6), can withstand wind Application tree containers, roof gardens	Paving	tolerates no paving
Other resistances resistant to frost (WH 1 - 6), can withstand wind  Application tree containers, roof gardens	Winter hardiness zone	6b (-20,5 to -17,8 °C)
Application tree containers, roof gardens	Wind resistance	good
	Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Shape multi-stem treem	Application	tree containers, roof gardens
	Shape	multi-stem treem

Magnolia ×soulangeana 'Satisfaction', is a new cultivar within soulangeana. Its beautiful compact growth habit makes it an excellent choice for smaller gardens. The bicoloured bowl-shaped flowers that appear in April/May are deep pink outside and the inside is creamy white. Due to its later flowering, it is less likely to suffer frost damage than, for example, the stellata cultivars and will also bloom longer. The leaves are ovate to elliptical, mid-green. This magnolia does best in well-drained neutral to acidic soil. Hardiness: Zone 8b
