Aesculus 'Laciniata'

Height	10 -12 (15) m
Width	4-6m
Crown	narrow pyramidal, half-open crown
Bark and branches	a thin, brown, smooth bark
Leaf	palmatifid, 5/8 leaflets, dark green, 10 -15 cm
Flowers	ver strongl reduced, inconspicuous
Fruits	none, fruitless cultivar
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	all
Soil type Paving	all tolerates paving
Paving	tolerates paving
Paving Winter hardiness zone	tolerates paving 6 (-23,3 to -17,8 °C)
Paving Winter hardiness zone Wind resistance	tolerates paving 6 (-23,3 to -17,8 °C) moderate to good
Paving Winter hardiness zone Wind resistance Other resistances	tolerates paving 6 (-23,3 to -17,8 °C) moderate to good resistant to frost (WH 1 - 6)
Paving Winter hardiness zone Wind resistance Other resistances Application	tolerates paving 6 (-23,3 to -17,8 °C) moderate to good resistant to frost (WH 1 - 6) small gardens
Paving Winter hardiness zone Wind resistance Other resistances Application Shape	tolerates paving 6 (-23,3 to -17,8 °C) moderate to good resistant to frost (WH 1 - 6) small gardens clearstem tree

A graceful tree of average height with a striking leaf. Each leaf is palmately divided into 5 to 8 leaflets. These have various shapes, but each one is deeply lobed. (laciniata is Latin for "deeply lobed"). This narrow leaf shape is sometimes thin as a thread. This produces a very decorative tree.
