

Cornus florida 'Rainbow'

Height	4-7 m
Width	4-6m
Crown	flatened spherical, dark, dense crown, capricious growing
Bark and branches	grey
Leaf	variegated, green/yellow
Autumn colour	red
Flowers	white, flowers in May
Fruits	red
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	loamy soil, sandy soil, peaty soil, acid soil
Paving	tolerates no paving
Winter hardiness zone	6b (-20,5 to -17,8 °C)
Wind resistance	good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, provides food for birds
Application	small gardens, patio gardens
Shape	clearstem tree, multi-stem treem

Grows from a shrub into a small, multi-stemmed tree with a flat-topped, spherical crown. Due to the more or less horizontal branching pattern, the crown becomes wider than it is high. The leaves are dark green with cream to yellow margins, sometimes tinged slightly pink. In autumn, the leaf turns a beautiful red. Each flower head is surrounded by four slightly overlapping, white bracts. The plant is shallow rooting with a fibrous root system and requires humic soil, which is not too dry. On excessively dry soil, the leaf is sensitive to sunburn.
