

Fraxinus pennsylvanica 'Urbanite'

Height	15-18 m
Width	10-12m
Crown	broad conical, half-open crown
Bark and branches	brown, grey
Leaf	green, feathered leaf
Autumn colour	red
Flowers	green, flowers in May
Fruits	brown, seldom
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, calcareous soil
Soil moisture	suitable for dry soil, suitable for wet soil
Paving	tolerates partial paving
Winter hardiness zone	4 (-34,4 to -28,9 °C)
Wind resistance	good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind, resistant to de-icing salt
Application	avenues and broad streets, coastal areas

Fraxinus pennsylvanica 'Urbanite' is an American selection with a closed, spreading pyramidal crown. It can attain a height of 15 - 18 m. The bark is brown grey. The leathery, odd-pinnate leaves are shiny dark green and turn brown-red to bronze-red in autumn. After the inconspicuous greenish flowers in May/June, sometimes winged fruits (keys) appear. Useful as a park and avenue tree for wide road profiles. Prefers dry, not too poor soil and tolerates urban climates well. Winter hardiness zone: 4
