## Malus 'Hopa'

leight     4-6 m       violth     4-6 m       crown     round/spherical, half-open crown       lark and branches     brown       read     reddisch brown       clowers     red, flowers in May       cruits     red       spines/thorns     None       coxicity     usually not toxic to people, (large) pets and livestock       soil type     clayed soil, loamy soil, sandy soil, acid soil, calcareous soil
round/spherical, half-open crown  brown  reddisch brown  red, flowers in May  ruits  red  pines/thorns  None  usually not toxic to people, (large) pets and livestock  clayed soil, loamy soil, sandy soil, acid soil, calcareous soil
brown  reddisch brown  red, flowers in May  ruits  red  None  None  usually not toxic to people, (large) pets and livestock  clayed soil, loamy soil, sandy soil, calcareous soil
reddisch brown red, flowers in May ruits red  pines/thorns None voxicity usually not toxic to people, (large) pets and livestock clayed soil, loamy soil, sandy soil, acid soil, calcareous soil
red, flowers in May ruits red  spines/thorns None roxicity usually not toxic to people, (large) pets and livestock soil type clayed soil, loamy soil, sandy soil, acid soil, calcareous soil
red  None  voxicity  usually not toxic to people, (large) pets and livestock  colitype  clayed soil, loamy soil, sandy soil, calcareous soil
Poines/thorns  None  Usually not toxic to people, (large) pets and livestock  Soil type  Clayed soil, loamy soil, sandy soil, acid soil, calcareous soil
coxicity usually not toxic to people, (large) pets and livestock  coil type clayed soil, loamy soil, sandy soil, acid soil, calcareous soil
clayed soil, loamy soil, sandy soil, calcareous soil
Paving tolerates paving
Vinter hardiness zone 4 (-34,4 to -28,9 °C)
Vind resistance good, susceptible to sea wind
Other resistances resistant to frost (WH 1 - 6), can withstand wind
resistant to frost (WH 1 - 6), can withstand wind, provides food for birds
pplication roof gardens, industrial areas, small gardens, patio gardens
clearstem tree, multi-stem treem

Malus 'Hopa' has a somewhat variable crown with branches spreading wide. Height 4 - 6 m. The oval leaves are purplish-green. The flowers in bud are carmine coloured but turn dark lilac-pink to pale lilac-red after opening: they are single. The diameter of the flower is approx. 4 cm. The fruit is bright red and remains hanging in the tree until mid-October. Diameter of fruit 2 - 3 cm. Can be used in parks, public gardens and small gardens. It makes heavy demands on the soil as regards moisture supply and fertility. 'Hopa' is very sensitive to scab. Winter hardiness zone: 4
