

Malus 'White Angel'

Height	5-6 m
Width	4-6m
Crown	vase-shaped, half-open crown
Bark and branches	brown
Leaf	green
Flowers	white, flowers in May
Fruits	red
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, acid soil, calcareous soil
Paving	tolerates paving
Winter hardiness zone	4 (-34,4 to -28,9 °C)
Wind resistance	good, susceptible to sea wind
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, provides food for birds
Application	industrial areas
Shape	clearstem tree, multi-stem treem

Malus 'White Angel' is an American cultivar with an ascending, compact, vase-shaped crown that can reach a height of 6 m. Later the crown grows broader. When the leaves first emerge they are a fresh colour of green, later turning to dark green. The flower buds are pink, the opened flowers white, 2 - 3 cm in diameter and single. The scarlet red fruits have a diameter of 1.2 - 1.7 cm. 'White Angel' makes heavy demands on the soil as regards moisture supply and fertility and is sensitive to sea wind. Winter hardiness zone: 4
