

Prunus ×schmittii

Height	8-10 m
Width	3-4m
Crown	narrow vase-shaped, half-open crown
Bark and branches	reddisch brown
Leaf	green
Autumn colour	yellow, orange
Flowers	light pink, flowers in April
Fruits	red
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, calcareous soil
Paving	tolerates paving
Winter hardiness zone	5a (-28,8 to -26,1 °C)
Wind resistance	fairly
Other resistances	resistant to frost (WH 1 - 6)
Fauna tree	resistant to frost (WH 1 - 6), valuable for bees (honey plant)
Application	avenues and broad streets, narrow streets, small gardens, patio gardens
Shape	clearstem tree, multi-stem tree

Prunus x schmittii is a fast growing tree with a narrow vase-shaped crown and a height of up to 10 m. The bark is remarkably glossy and brownish-red with horizontal stripes (lenticels). The elongated elliptical leaves are dark green and approx. 5 - 8 cm in length. In the autumn the leaves turn a pretty yellow-orange. The tree flowers in April and May, producing fairly unremarkable pale pink flowers. It flowers for scarcely more than a week. P. schmittii can be planted in small streets and gardens. Winter hardiness zone: 5
