

Quercus ×hispanica 'Waasland'

Height	6-12 m
Width	5-9m
Crown	flatened spherical, half-open crown
Bark and branches	grey
Leaf	evergreen
Flowers	light yellow, flowers in May
Fruits	brown
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	loamy soil, sandy soil, calcareous soil
Soil moisture	suitable for wet soil
Paving	tolerates no paving
Winter hardiness zone	6b (-20,5 to -17,8 °C)
Wind resistance	good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind, resistant to de-icing salt
Application	industrial areas
Shape	clearstem tree, feathered tree, multi-stem treem

A semi-evergreen to full evergreen medium-size tree or large shrub with a round to flat-topped spherical crown, 6 to 12 m tall. Young twigs grey-green and densely hairy. The thick bark is dark grey and deeply grooved. The elongated to narrow elliptical leaves have a variable margin. This varies from smooth-edged to rough serrated. They are dark green on top and lighter with grey hairs on the underside. During severe cold, the leaves turn brown in the winter, only falling when the new leaves emerge. A healthy, warmth-loving tree which prefers a limy soil.
